What Can We Do For You?

Credit Investigations

We are always ready to assist our friends in investigating the financial or credit standing of persons, firms or corporations with whom they contemplate dealing, no matter where located.

Our facilities are such that we probably can be of great help in this respect, and, whether you are a customer or not, please feel free to call on us for such service. We will be glad to serve you without charge.

Our ambition is to make this a bank of real personal service.

South Boston Tobacco Market Opens Sept. 20

We will on the above date throw open to you our doors for the sale of the golden weed. With these few months of rest, your past presence remains fresh in our memory and your faces we will never forget. We regret to say we are not in position to make any prediction regarding prices, but hope they will start off good. We want your business, but do not advise a rush. And considering the high prices of all foods this year, we now think it the opportune time to harvest

your corn and forage and seed your wheat and oats. Our factories have made big preparations to handle this

crop, some enlarging and others built. Our old competent force remains with us and some new ones added. Our house remains the same, and yet with more floor space. South Boston is the market and "The Independent" is the house. Let us have the pleasure of selling your first load and we will endeavor to please you. Thanking you for the liberal patronage shown us in the past and trusting to share a larger portion this year with

the services we shall endeavor to render you, we are, Yours for business,

IT RUNS ON KEROSENE

APPOMATTOX COMPANY

Every Inch of the Bases Steel Mule is Thoroughbred

The United States government by means of the Department of Agriculture, has been looking into the tractor question, and its bulletins clearly proves that the satisfied tractor owner-men who say that the tractor has paid-are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing. No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quantity production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE cost slightly more in the beginning . to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is far cheapest to own when you come to actually USE it.

The Bates thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There is'nt a part that is'nt time-tried and tested. There is'nt a part that experience has'nt dictated the shape and size of; and in it all there is'nt one superfluous part, nor one part that isn't capable of standing up unler twice the strain it gets in actual use. These are things experience and practice have distracted The BATES comes to you as a fulfil ment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you can not afford to pack your seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offerd in any tractor on the American market today.
